

Coquitlam: where urban vitality combines with abundant natural beauty and a thriving cultural milieu. The City of Coquitlam, approximate population of 125,000, is carving out a unique presence that is attracting more and more people to its neighbourhoods and significant investment into its infrastructure.

## **Mapping Technician 2 TFT up to approx. Oct 2013**

This is a technical position of the Mapping Section in the Engineering and Public Works Department. You will lead and perform mapping functions including research, compilation and input of spatial and attribute data from water utility engineering record drawings to a geographic information system (GIS) and maintenance management system. The ability to act as project leader on a variety of water related mapping projects and establish effective working relationships with internal contacts is essential.

You have obtained or are in the process of achieving a diploma in GIS with related engineering experience in a municipal environment is preferred. You will bring strong knowledge of: ESRI ArcGIS 9.3.1 and other ESRI extensions, AutoCAD, Microsoft applications, MAXIMO and related software; GIS analysis; water utility/civil record drawing reading/interpretation; spatial editing; and possess excellent interpersonal and communication skills.

The CUPE hourly rate of \$28.14 - \$33.14 (2011 rates) is offered, plus a competitive benefits package. Please submit a cover letter and résumé, citing reference #2012-100897, by 5:00 p.m., Monday, August 27, 2012 to:
