

GIS/CAD TECHNICIAN

Vancouver Employer seeks GIS/CAD Technician and is inviting resumes from qualified candidates who are highly motivated, adaptable, and team-oriented. As part of your work, you will participate in multi-disciplinary projects. You will be responsible for the visual representation of data and concepts that relate to various themes, including mine waste facilities, water management structures, stream networks, groundwater environments, coastal ecosystems, contaminant flow paths and treatment systems. Occasional field opportunities will be made available as some level of field experience can provide important context for projects.

The ideal candidate will have the following qualifications:

- An advanced diploma in Geographic Information Systems, a Bachelor of Technology in GIS degree, or equivalent accreditation from a recognized post-secondary institution.
- Minimum 1-year of practical experience in computer operation and GIS, spatial data processing and cartographic mapping.
- Proficiency in the use of AutoCAD Map 3D (or Civil 3D), and ArcGIS.
- Excellent written and verbal communication skills.
- Strong interpersonal and organizational skills.

Salary will be commensurate with experience and education. We offer a comprehensive benefits package.

If you feel that your background satisfies the required qualifications, please submit a detailed resume along with a cover letter by **November 30, 2012** to info@lorax.ca.

Only applicants to be interviewed will be contacted. No phone inquiries please.
