

Survey Crew Chief

Location: Edmonton, AB

- **Highly attractive salary, depending on experience.**
- **Full benefits and company RSP matching, plus incentives.**
- **Work with a leading organization committed to adhering to safety standards.**

About the Organization

It is proven that when people enjoy their work environment they are more productive, reliable, and conscientious. Therefore, when you mix great people with a positive, professional, and enjoyable atmosphere, you achieve greatness.

That is what we are about!

Founded in 2003, *Millennium Geomatics Ltd* is a young, dynamic, progressive firm offering a range of geomatics solutions to the Western Canadian oil and gas industry. *Millennium Geomatics* strives to maintain a model where our field personnel are located near core project areas in Alberta and Saskatchewan. Millennium has steadily grown since its inception and continues to broaden the range of services provided to clients.

Millennium Geomatics is also a proud supporter of its local community which is evident through involvement with events and organizations including Biathlon Canada, Breast Cancer foundation, Calgary Food Bank, and Canadian Cancer Society.

About the Opportunity

Millennium Geomatics is currently seeking a full-time **Survey Crew Chief** based in **Edmonton, Alberta**.

In this key position, you will **coordinate survey projects, oversee multiple survey crews, and train junior crews**. You will also **liaise and collaborate with clients, providing the highest level of customer service at all times**.

The successful candidate will be a **graduate of a registered Survey or Geomatics Technology program**, or have equivalent experience in a related field. You will also

need at least 3 years of experience running a survey crew within the Oil & Gas industry.

Experience in legal surveying specifically in the Western Canadian region will be considered a definite asset, however we will accept applications from candidates with the correct blend of experience who are quick learners.

To be successful in this role, you must be well versed with all aspects of oilfield surveying, with proficiency in **RTK** and **static GPS data collection and processing**, as well as **strong computer skills**. If you have experience using **MicroSurvey software**, have **H2S certification**, **First Aid**, **ATV**, and **chainsaw faller safety**, then you will be at an advantage above the rest!

Strong work ethic and values are crucial to this active role, and you will be required to work throughout Alberta for extended periods of time as part of a 2-person crew.

About the Benefits

Millennium offers an above average compensation package including: **competitive salaries, comprehensive benefits package, company RSP matching**, a safe work environment, and the opportunity to contribute to and receive the benefits of a successful company.

Exciting opportunities to learn and grow await you at Millennium Geomatics Ltd! Apply Now!
