## SENIOR GEOMATICS SPECIALIST

- VANCOUVER -

### Responsibilities:

- Provide intermediate to advanced level quality GIS and/or CAD support work to both our internal and external clients, within budget and on time
- Work closely with the Geomatics Team Managers at Hemmera to provide relevant and timely inputs to continually grow the capabilities/knowledge of the Geomatics Team
- Help facilitate the Geomatics Team's Business Development platform to identify and pursue external opportunities as they arise, in direct conjunction with the Director, Geomatics
- Participate in meetings and other strategy sessions as required
- Act as a mentor to the junior members of the staff who could benefit from your extensive Geomatics experience
- Take on other types of Geomatics tasks as circumstances dictate

### Qualifications:

- Minimum of a Bachelor Degree (or technical equivalent) in GIS or in a Geomatics related discipline
- 10+ years hands-on Geomatics work experience within the industry, preferably with at least 4 years in a senior role supervising Geomatics work
- Intermediate to Expert level hands-on knowledge of both Autodesk (AutoCAD) and ESRI (ArcGIS) platforms
- Knowledge of SDE and data management would be considered an asset as would experience in databases such as SQL Server, PostgreSQL, Access and a working knowledge of scripting and programming in Python for ArcGIS API
- Thorough understanding of both CAD and GIS environments and concepts

### Details:

The successful candidate will work from our Vancouver office. Please note that our Vancouver office will be relocating to Burnaby in mid 2014.
