

**BE PART OF THE TEAM THAT
BRINGS THE WORLD TOGETHER.**

**Employment Opportunity: GIS/CAD Technician
(1 Year Maternity Leave)**

Want to work in an exciting environment with some of the most talented people in Canada? Join our team and connect with your potential.

Port of Vancouver is Canada's largest and most diversified port, stretching along 360 kilometres of shoreline and waterways and bordering on 16 municipalities. The Vancouver Fraser Port Authority ("VFPA") leads the efficient and reliable movement of cargo and passengers, annually trading \$184 billion in goods with more than 160 trading economies.

Our Engineering Team is seeking a skilled GIS/CAD Technician to provide a variety of services related to planning, construction and maintenance of infrastructure, including computerized drafting, GIS, LIS, records maintenance, plotting, scanning and research. In this role, you will:

- Prepare, collect and input data for various VFPA systems, including GIS, LIS and Engineering Department Document Index (EDDI).
- Responsible for the regular updating and reconciliation of land inventories in GIS, including regular site inspections in support of Fraser River water lot utility value reports.
- Prepare a wide variety of plans, including preliminary design, tender, site, as-built, lease, licence, orthophoto and display plans from a wide variety of source material. Revise VFPA mapping as required.
- Modify data files received from others to meet VFPA digital storage requirements and ensure that as-built drawings of all facilities and structures built on VFPA property are received and recorded.
- Carry out research related to historical records.

- Assist with the organization and maintenance of electronic and hard copy drawings and records related to Port infrastructure and assets as required.
- Assist with site surveys, dredging volume calculations and measurements as required.

As the successful candidate, you have a 2 year full-time technical diploma along with a minimum of 2 years of related civil engineering drafting using AutoCAD (preferably AutoCAD Map 3D). Knowledge of ESRI ArcGIS software is a plus. You are a customer-oriented individual who enjoys working in a team environment. Your positive attitude, flexibility and strong work ethic will be valued in this role.

Vancouver Fraser Port Authority offers a competitive compensation and benefits package including an Earned Time Off program.

If we have accurately captured your profile above, please apply on-line by visiting <http://www.portvancouver.com/careers>, by **August 26, 2016**.

Vancouver Fraser Port Authority is dedicated to employment equity and a workplace reflective of the diversity of our community.
