

Auxiliary GIS Analyst (Six Month Term)

BC Ministry of Forests, Lands, Natural Resource Operations and Rural Development
South Coast Natural Resource Region - Surrey, BC

Annual Salary: \$ 55,422.02

Apply your specialized knowledge and skills in this challenging and rewarding role.

As the GIS Analyst, you will conduct advanced spatial data analysis in support of provincial government agencies on resource management and stewardship. The projects you will support may include identifying critical wildlife habitats and old growth management areas, analyzing resource values and impacts, supporting clean energy and other authorization projects, and developing web mapping, dashboard and mobile geospatial solutions.

You will be familiar with using ESRI's suite of GIS software including ArcGIS Desktop and ArcGIS Online. Your ability to automate analyses using ModelBuilder is essential. Ability to create and modify python scripts to automate geoprocessing tasks is preferable. Your cover letter and resume should show your experience performing spatial overlays, queries, analyses and statistical summaries.

An effective communicator and leader, you will provide advice and guidance to staff, agencies and external clients, and effectively manage many concurrent projects in a collaborative manner. You have a proven track record of clearly establishing priorities and an ability to manage complex issues and projects to meet timelines and business objectives.

Our office is located in Surrey, BC, near Guildford Town Centre. If you are interested in working in a dynamic resource management organization and are skilled in providing GIS solutions, we encourage you to apply. To apply, please send your cover letter and resume to **Joshua.Chan@gov.bc.ca** by **September 22, 2017**.

Applicants must be legally entitled to work in Canada. A criminal record check will be required. Preference may be given to internal applicants. The term is for six months with potential for extension.
