

GIS Anywhere, Anytime on Any Device!

June 4, 2015

A circular graphic with a light blue background. The top half shows a world map with a network of white lines and circles connecting various points. The bottom half shows silhouettes of a diverse group of business professionals in suits, some standing and some sitting at a table, engaged in conversation. The text "Welcome Attendees!" is centered in the middle of the circle in a bold, dark blue font.

**Welcome
Attendees!**

Today's Topic...

GIS Anywhere, Anytime on Any Device!

- Exploring the direction of geospatial technology as new solutions provide access to spatial information anywhere, via mobile applications, anytime, access whenever it's needed, and on any device or platform.

Technology is Changing!

Have a great day!

MC for the Day
