Hack Our City

February 26, 2017

9:00 am - 5:00 pm

City Hall, 511 Royal Avenue

Join us February 25 and February 26 as we take over City Hall and Hack Our City. Sponsored by Amazon, this two-day Hack-a-thon features events for everyone and is inclusive of all skill levels and ages.

Drop-in Events

Both days:

- A place to work on your own coding and projects with access to mentors and experts – bring your own device
- Information about BridgeNet, New Westminster's fibre optic network currently under construction

Saturday:

- Lego Robotics – build and destroy Lego robots
- A tech bar staffed by New Westminster Public Library staff – bring your own devices and your questions!
- Come and build a cardboard building for our cardboard city with Hive City!

Hack Our City

a catalyst for public engagement

Becky Finley

GIS Analyst

Corporation of the City of New Westminster

Presentation Outline

What was the Purpose

- Improve public relations
- Strengthen our community
- Develop innovative solutions and new insights
- Use City's open data sets

Why Have a Hackathon

“The cities that have the greatest economic growth are those that connect with the innovation economy, the creative economy; It’s these types of activities that I think are going to put New Westminster on the map.”

Mayor Jonathan Cote

Who were the Committee

Contractor Coordinator

Hackathon Committee

**Knowledge Workforce
Committee**

**Intelligent
City Innovation
Committee**

Who Were the Stakeholders

- Sponsors
 - Grant from VanCity for Innovation Week
 - Grant from Amazon for the Hackathon
 - Cash prizes and tech credits
- Suppliers
 - School District provided chromebooks for kids
 - New Westminster provided technical and GIS staff, and venue
 - Amazon provided 7 people for technical help
 - Techno Monkey provided support staff for workshop

Who Was the Audience

- Post secondary students
 - UBC, Douglas College
- Future entrepreneurs
- Primary and secondary school students
 - Groups of ages 6-12, 13-18 and 8+

Where Was the Event

- New Westminster City Hall
 - BridgeNet
 - No-code Civic Hack
 - One on one with privacy expert
 - Lego Robotics
 - Tech bar
 - Spare Parts Adventure Playground
 - Hive City
 - Hour of Code
 - Stop Motion Animation

How Did we Attract Participants

- Prizes for the winners
- Recognition in the community
- Onsite mentors to give support
- Opportunity for participants to learn something new
- Made it fun

How Did we Do It

A group of children and adults are gathered around a large wooden conference table in a room. They are all focused on their laptops, which are open in front of them. Some children are looking at the screens, while others are typing. In the background, a man in a dark shirt is standing and talking to another man in a blue shirt. The room has a whiteboard on the left wall with some handwritten notes, and a clock on the wall. The overall atmosphere is one of collaborative learning and problem-solving.

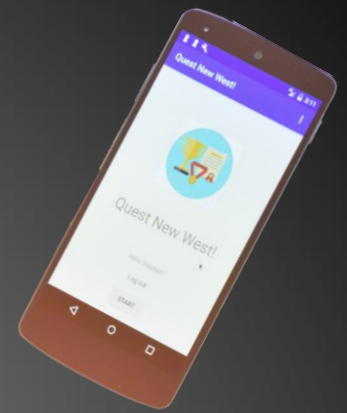

Hackathon Guide – A Hackathon How-To Guide for Government Agencies

<http://www.nyc.gov/html/hackathon/html/index.html>

The Hackathon Canvas – Hackathons Made Simple

<http://hackathoncanvas.co/>

The Results

Projects

1. Black Duck - game tourism app that also provides feedback to the City
2. D-Plan - charts the changing city to find jobs and living spaces
3. Snow and Tree - help community with snow removal and other extreme weather conditions

Data Used

Public Washrooms
Addresses
Electric Charging
Stations
Buildings

Drinking Fountains
Neighbourhoods
Parcels
Parks
School Catchments

Schools
School Walking Routes
Sports Fields
Street Network

Key Takeaways

- Hackathons:
 - Bring in the technology component to public engagement
 - Allow the government workforce to exchange idea needs
 - Can provide solutions to problems
 - Run smoother when partnered with experienced support
 - Invite diversity

Lessons Learned

- Get immediate feedback
- Review data structures
- Record the presentations
- Engage open data groups and agencies
- Attract diverse teams
- Narrow the overall theme / Create problem statements
- Allow follow-up opportunities for presenters and/or winners
- Question sustainability
