# GIS IN PLANNING

How can planners benefit from the latest  
GIS technology

## Plan Talk VII

### GIS IN PLANNING

**Planning Institute of British Columbia (PIBC)**

**Urban and Regional Information  
Systems Association (URISA - BC Chapter)**

This event is sponsored jointly by URISA - the BC Chapter the Urban and Regional Information Systems Association and the Planning Institute of BC/UBC School of Community and Regional Planning.

Recent growth within the information technology has created exciting new challenges and opportunities. The aim of this event is to introduce to planners the latest GIS technology and resources available to planners and demonstrate through practical examples, how GIS can assist planners in their daily tasks. Exploring the use of GIS in the review and update of the Zoning Bylaws of the City of Vernon, BC showcases the use of GIS in three applications; data capturing, data analysis, public access to information.

A panel of experienced practitioners will be on hand to support discussion and answer questions.

Our speakers are:

- **Tjaart Van den Berg**, LandInfo Technologies Inc.
- **Paul Fenske**, Ekistics Town Planning Inc.
- **Jim Radford**, Manager Planning, Development and Engineering, City of Vernon, BC
- **Charles Donley**, AICP, CommunityViz

The speakers will be joined by:

- **Stuart Jones**, Planner/Analyst, City of Richmond, BC
- **Gurdeep Singh**, Planner/GIS Specialist, Ministry of Sustainable Resource Management, Coast Region, Surrey, BC

**Cost : \$10 students \$20 practitioners**

Please be prepared to pay in cash at the door. Receipts will be issued. contact **Deana Grinnell**, [dgrinnel@civicnet.bc.ca](mailto:dgrinnel@civicnet.bc.ca), or call 604.270.8226, ext. 115.
