GIS Analyst

Permanent Full-Time TKC wage scale 7

Reporting to the Lands, Resources & Heritage Manager, the Geographical Information Systems Analyst, is responsible for the establishment and maintenance of the geomatics infrastructure for the Ta'an Kwäch'än Council Government, inclusive of digitized mapping products, services and tools to manage geographic data and in providing technical advisory/support for the department.

The two main functions of the GIS Analyst are the establishment and maintenance of geomatics infrastructure and the provision of GIS support to departmental initiatives in land and resource planning, environmental assessment and in land administration.

The GIS Analyst works closely with all LRH department staff, supports program delivery and contributes to fulfilling TKC's obligations to the Final and Self-Government Agreements.

The incumbent will participate in departmental organizational activities including strategic and work planning, budget development, internal/external communications and administrative activities.

For a complete job description, contact: rkufeldt@taan.ca.

As per policy, preference will be given to those of Aboriginal Ancestry who self-declare in their cover letter/résumé

Closing date: Thursday, August 8, 2019

Please submit a cover letter and résumé to E-Mail: human.resources@taan.ca
