

Where ideas work

Ministry of Forests, Lands, Natural Resource Operation and Rural Development

This position may be performed from either Williams Lake or Quesnel.

This is a temporary opportunity until January 31st, 2023, with the possibility of being extended until March 31st, 2024.

GIS Mapping Technician

\$56,032.51 - \$63,565.27 annually

BC Timber Sales (BCTS) manages about 20 per cent of the province's allowable annual cut for Crown timber, generating economic prosperity for British Columbians through the safe, sustainable development and auction of Crown timber.

BCTS also supports government's commitment to true, lasting reconciliation with First Nations in BC as we move toward fully adopting and implementing the United Nations Declaration on the Rights of Indigenous Peoples and the Calls to Action of the Truth and Reconciliation Commission.

To find out more about our program check out the [BCTS website](#)

The GIS Mapping Technician creates digital, graphic, and descriptive products to support resource planning through the use of GIS. The GIS Mapping Technician supports planning and operational initiatives through data input, manipulation, and quality control as well as map production and generation of associated reports for GIS analysis to provide insight into resource management.

Qualifications for this role include:

- Diploma or degree in geographic information systems, or in a related field, such as natural resources or geography and one year of related experience.

OR

- Equivalent combination of training and three years related experience.
- Experience capturing, converting, creating, editing, and maintaining digital information in a GIS environment.
- Experience creating a variety of digital, geographical, and descriptive products including thematic maps, terrain models and associated descriptive statistics.
